PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building scalable web applications, AI-powered systems, and developer tooling platforms. Skilled in React, Node.js, TypeScript, and modern AI integrations including multi-model LLM orchestration, EVALS, and vision-based flows. Experienced in code validation systems, Beckn Protocol BAPs, GitHub webhook integrations, real-time systems (WebSockets, WebRTC), Chrome Extension development, and cloud deployment on AWS.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Redux, Tailwind CSS, MUI, Chakra UI

Backend: Node.js, Express.js, REST APIs, Socket.IO, WebRTC, JWT, OAuth 2.0

AI / LLM: OpenAI API, LLM Prompting, EVALS, Multi-model Orchestration, Structured Outputs, Vision-based Flows

Database: MongoDB, PostgreSQL

Cloud / DevOps: AWS Amplify, Elastic Beanstalk, GitHub CI/CD, GitHub Actions, Webhooks

Testing: Cypress, Jest

Tools: Chrome Extension (MV3), Cloudinary, Supabase, Beckn Protocol

PROFESSIONAL EXPERIENCE

AI Full Stack Developer

Apr 2025 – Present

Devzy.ai — Remote

- Worked on both frontend and backend of Devzy — an AI-native Human-AI Code Validation and Governance Platform for regulated industries (SOC 2, HIPAA, PCI-DSS, GDPR).
- Built and owned the Conversation Feedback Loop — full-stack feature allowing users to provide structured feedback on AI-generated code reviews, feeding back into model improvement pipelines.
- Developed the GitHub Webhook integration — real-time pipeline triggering Devzy scans on push and PR events, delivering analysis results at commit time via GitHub Actions.
- Currently building EVALS — evaluation framework to benchmark and measure LLM output quality for code validation tasks across accuracy, consistency, and compliance dimensions.
- Integrated multi-model LLM orchestration (GPT, Claude, open-source models) achieving 50%+ accuracy improvement over single-model approaches.
- Built backend REST APIs supporting 6-layer code validation: Architecture, Compliance, Security (247 OWASP/CWE rules), Performance, Quality, and UX layers.

Full Stack Developer

Sep 2022 – Present

Enterprise Minds, Inc — Pune, India

- Developed multiple Beckn Application Platforms (BAPs) for mobility, retail, and tourism domains.
- Owned end-to-end features across Azisly.ai — AI-assisted career platform — including web app, backend APIs, and Chrome extension (MV3).
- Integrated LLM and vision-based flows for job-page understanding, form detection, and auto-answer generation.
- Built REST APIs for authentication, user profiles, and analytics tracking.
- Optimised MongoDB queries, improving API response times by 60%.
- Delivered scalable frontend using React, TypeScript, and Redux with modern state management patterns.

Trainee Software Engineer

Apr 2022 – Aug 2022

Enterprise Minds, Inc — Pune, India

- Built responsive web applications using React.js, JavaScript, HTML5, and CSS3.
- Delivered 8 production-ready features with responsive, cross-browser-compatible design.

PROJECTS

Devzy — AI Code Validation and Governance Platform

React, Node.js, Multi-LLM Orchestration, GitHub Webhooks, EVALS

- Full-stack contribution: conversation feedback loop, GitHub webhook integration, and LLM EVALS framework.
- 6-layer validation (Security, Compliance, Quality, Performance, Architecture, UX) with real-time scanning via GitHub Actions.
- Multi-model LLM orchestration (GPT + Claude + OSS) for 50%+ accuracy improvement and 33% cost savings.

Azisly.ai — AI-Assisted Career Platform

React, Node.js, Chrome Extension MV3, OpenAI API, REST APIs

- Automated job search and application via Chrome extension using LLM and vision-based form understanding.
- Built web app for auth, profile management, resume generation, interview prep, and company insights.

LearnLoop — Peer-to-Peer Skill Exchange

Socket.IO, WebRTC, JWT, OAuth 2.0, OpenAI API, AWS Amplify, Elastic Beanstalk

- Real-time messaging and video calls; secure JWT and Google OAuth 2.0 authentication.
- Deployed on AWS Amplify and Elastic Beanstalk; 100+ reusable components.

EDUCATION

Bachelor of Engineering — Information Technology

PRMITR College of Engineering, Sant Gadge Baba Amravati University

CGPA: 8.9

ADDITIONAL

Collaboration: Code reviews, Pair programming, Agile / Scrum

Interests: Singing, Cooking
